GIS PROFESSIONAL

MOSSAB HAMED

GIS & Geospatial Engineer

Infrastructure • Utilities • Transportation • BIM-GIS • 3D GIS

9+ YEARS EXPERIENCE

Saudi Arabia

ArcGIS Pro · ArcGIS Online · Experience Builder · Dashboards

Python / ArcPy · FME · SQL · AutoCAD · Civil 3D · Revit

TURNING SPATIAL DATA INTO REAL IMPACT

Professional Profile

Career positioning and technical focus

PROFILE

GIS & Survey Engineer with 9+ years of professional experience delivering geospatial solutions for infr Saudi Ar

9+
Years Experience

15+
Projects / Workstreams

GIS
Web Applications

3D
BIM-GIS

Infrastructure & Transportation

GIS data management, corridor mapping, construction datasets and project reporting.

Utilities

Water, wastewater, stormwater and utility asset information with spatial QA/QC.

Digital Engineering

BIM-GIS integration, 3D GIS, web GIS and automation workflows.

Core Expertise & Technology

Software, methods and delivery capabilities

GIS & Web GIS

ArcGIS Pro • ArcGIS Online • ArcGIS Enterprise • Experience Builder • Dashboards • Survey123 • StoryMaps

Data & Automation

Geodatabase Design • Domains • Subtypes • Python / ArcPy • SQL • FME • ModelBuilder

AEC / Engineering

AutoCAD • Civil 3D • Revit • BIM-GIS Integration • 3D GIS • Infrastructure Mapping

QA/QC & Delivery

Geometry Validation • Attribute QA/QC • Topology • Metadata • Data Governance • Digital Handover

Software logos can be replaced here with your preferred official icons.

PROJECT FOOTPRINT

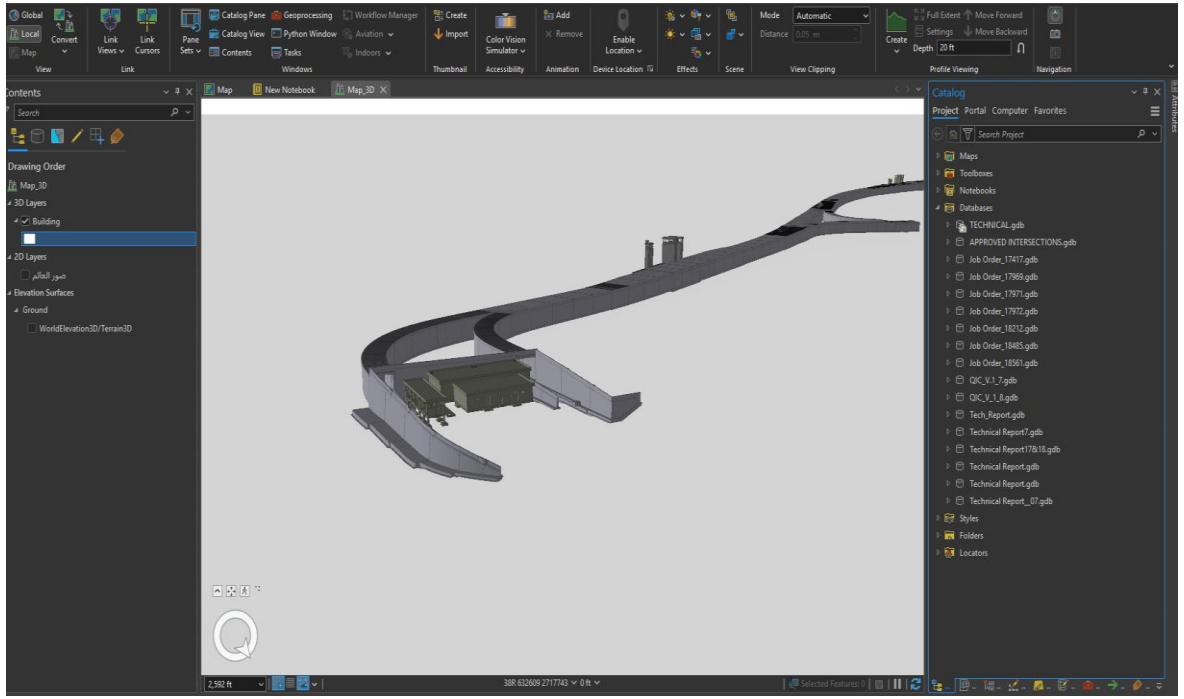

Selected Projects Across Saudi Arabia

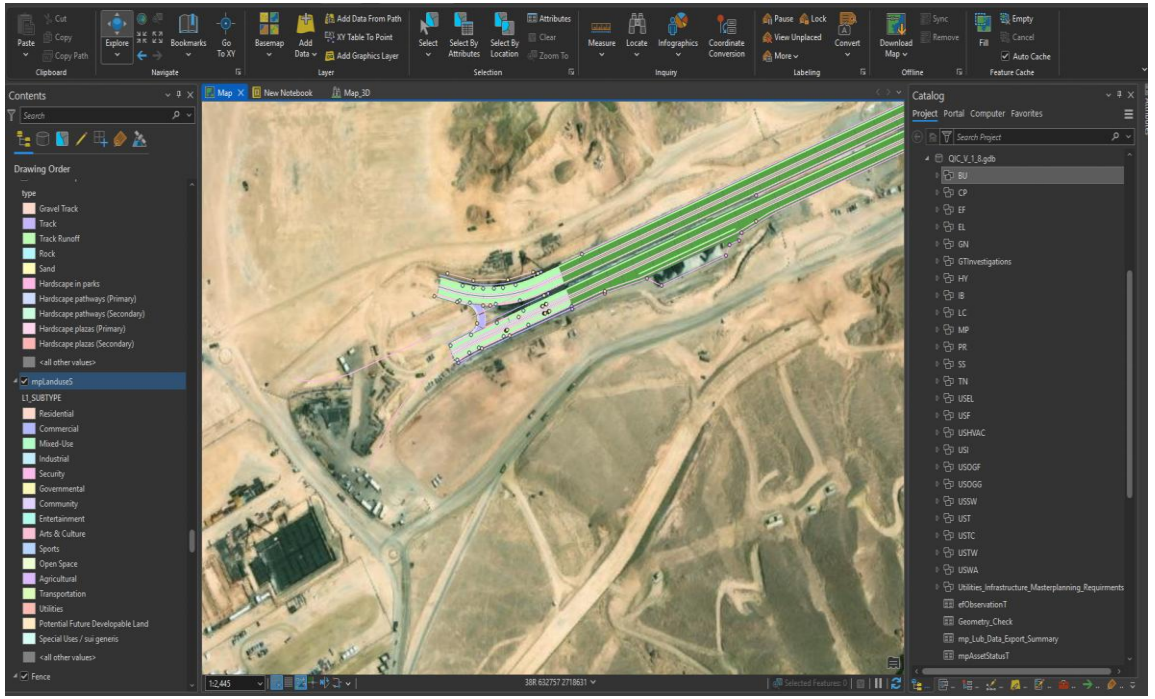

A geographic snapshot of infrastructure, utilities and construction GIS experience

Project Showcase — Qiddiya

Infrastructure GIS, tunnel modeling and BIM-GIS integration

2D Infrastructure GIS

Engineered datasets, symbology and structured geodatabase content.

3D GIS / Tunnel

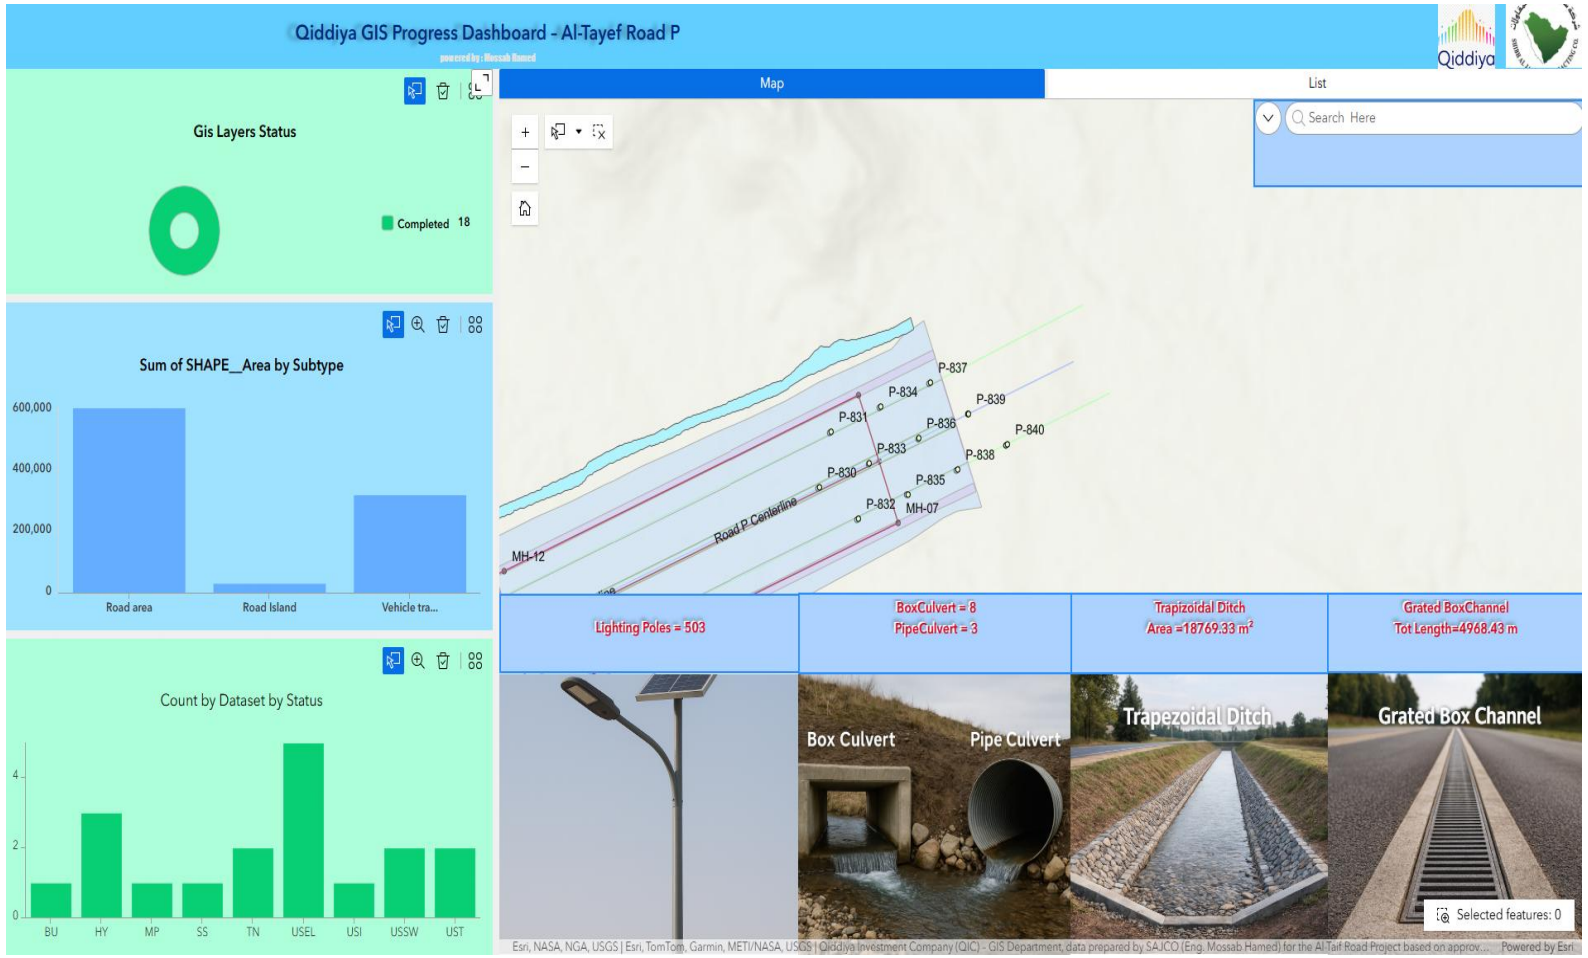

3D visualization of infrastructure components and engineering context.

BIM-GIS Workflow

Integration of engineering models and GIS for coordination and reporting.

Project Showcase — Qiddiya Al-Taif Road

Experience Builder construction GIS

GIS Layer Status

Monitoring completion and dataset readiness.

Quantities & KPIs

Road areas, drainage elements and infrastructure quantities.

Interactive Web GIS

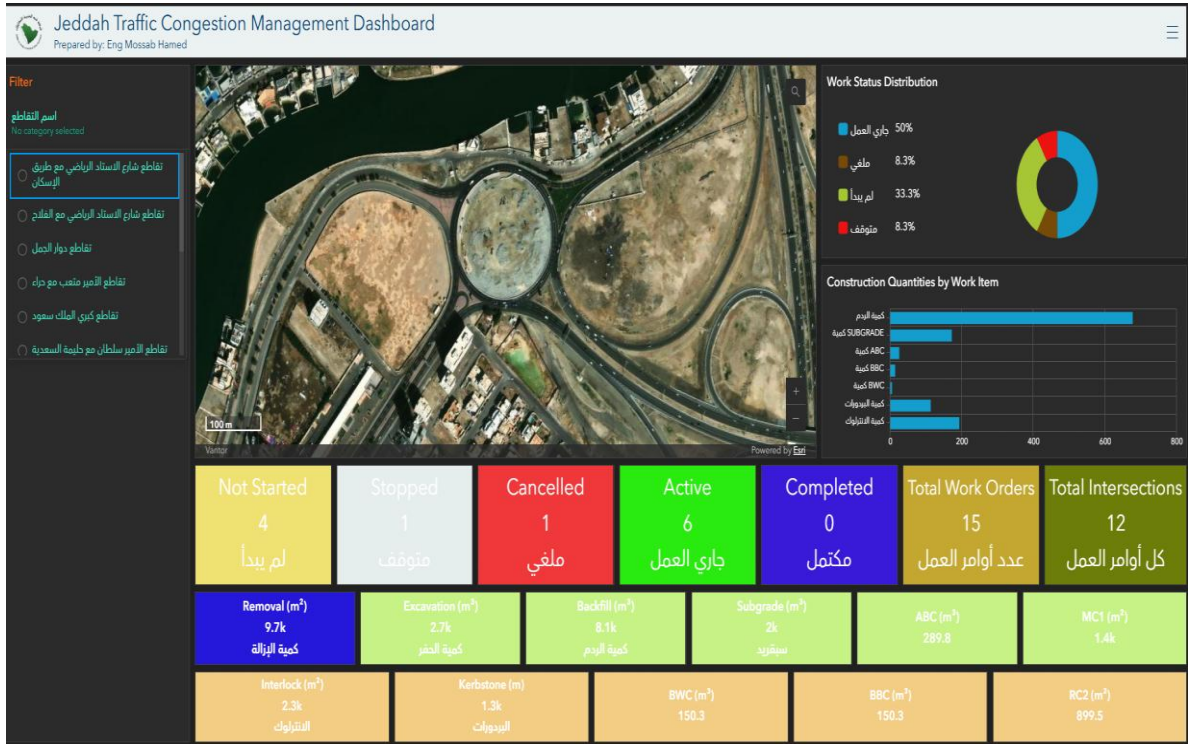

Map, charts, indicators and visual project references.

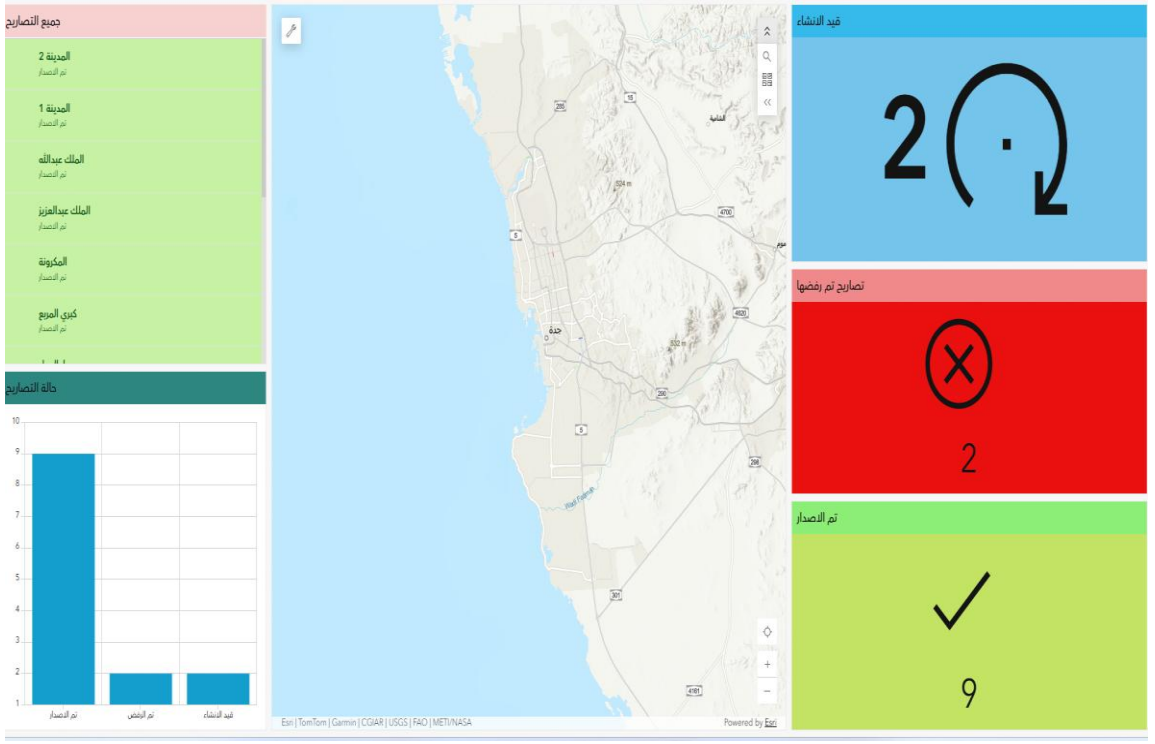

VIEW LIVE EXPERIENCE BUILDER →

LIVE EXPERIENCE BUILDER

Project Showcase — Jeddah Traffic Congestion

Operational dashboards for permits and site works

Site Works Dashboard

SITE WORKS DASHBOARD →

Work status, quantities, work orders, intersections and operational KPIs.

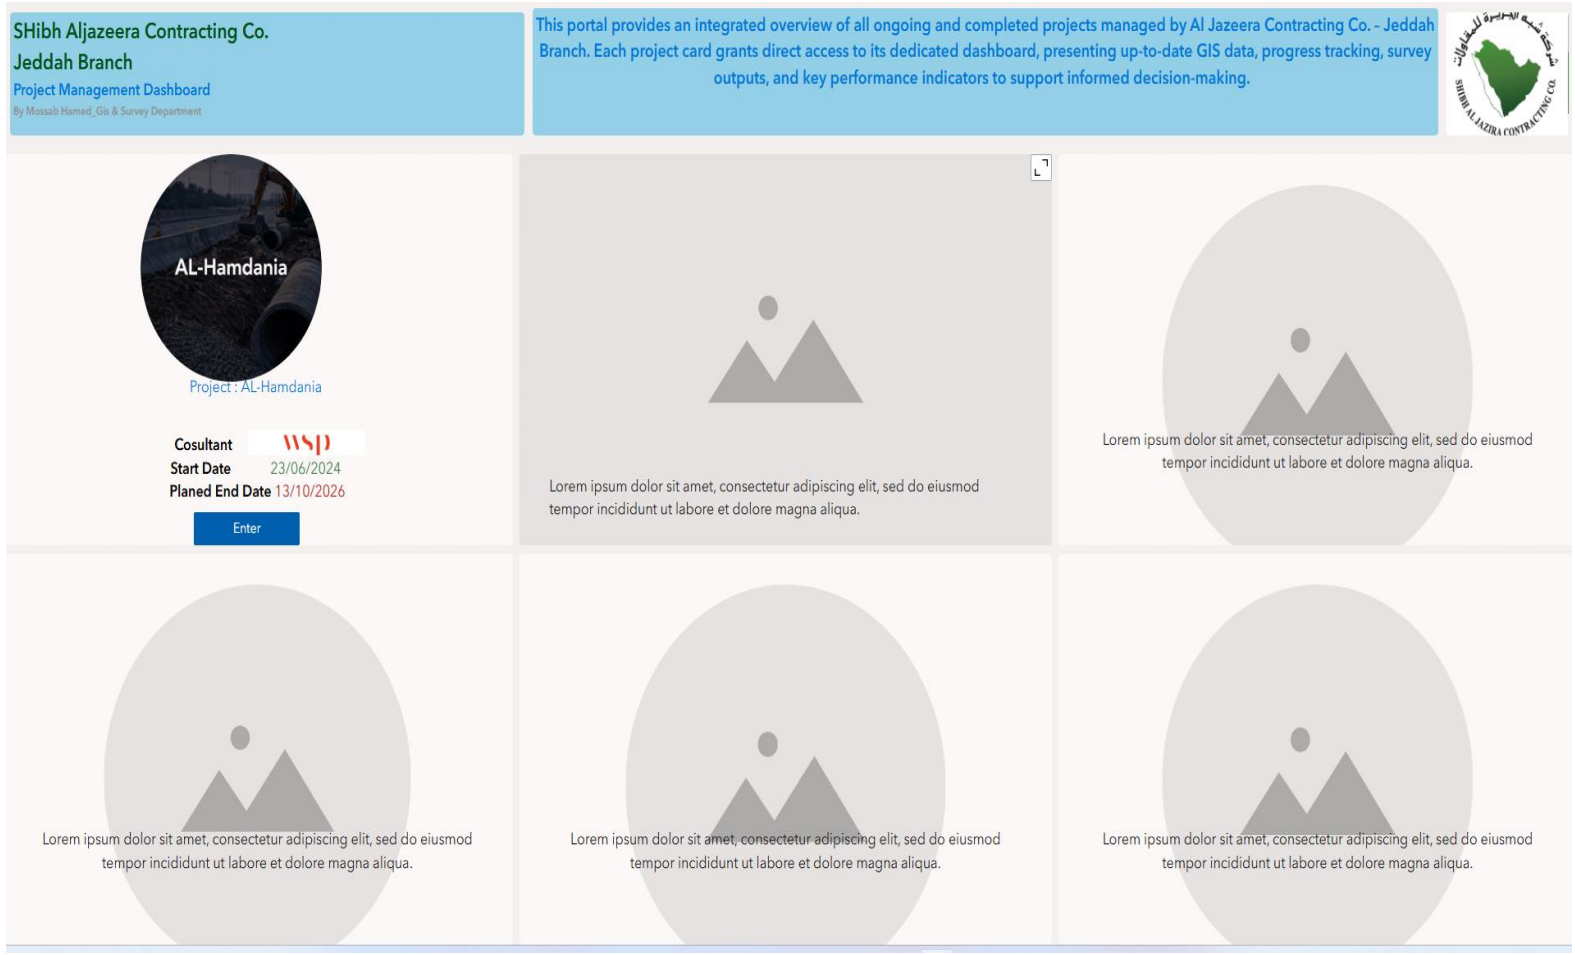

Permits Dashboard

PERMITS DASHBOARD →

Permit status, locations and summary indicators for decision support.

Project Showcase — Jeddah Project Management Portal

ArcGIS Experience Builder — multi-project overview

Project Navigation

Cards and project-level access to dashboards and GIS outputs.

Progress Monitoring

Integrated project status and reporting.

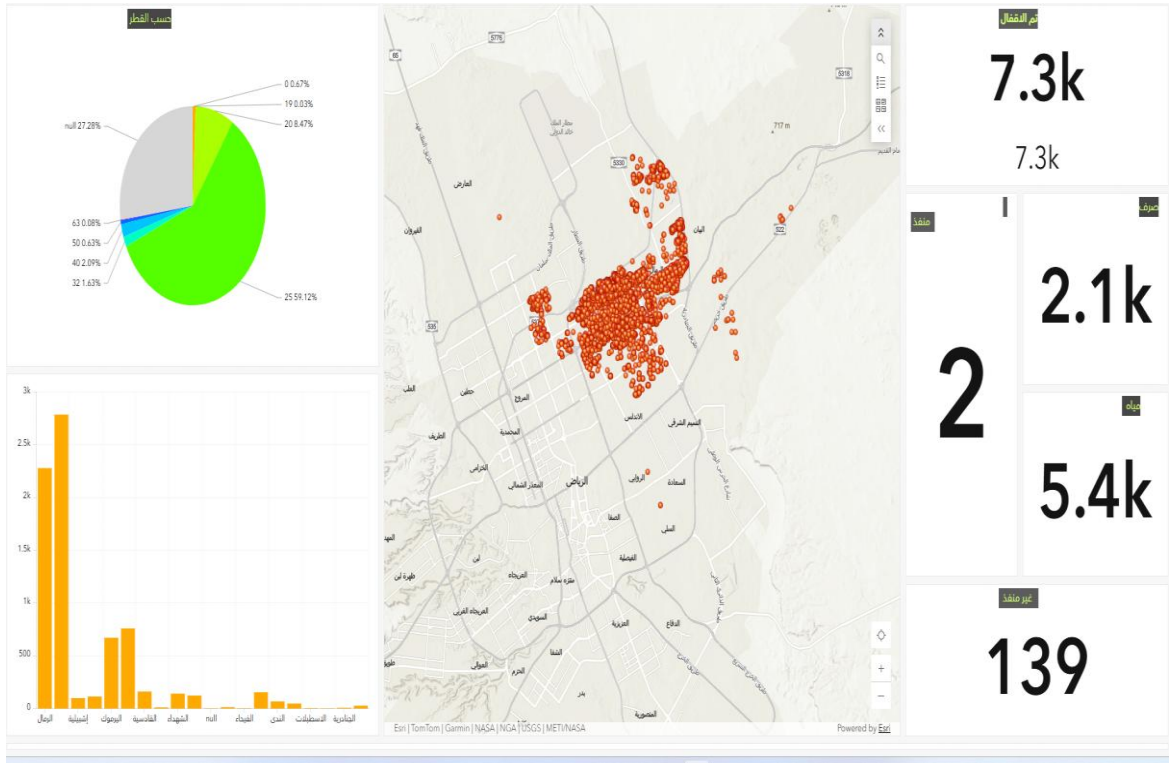

Stakeholder Reporting

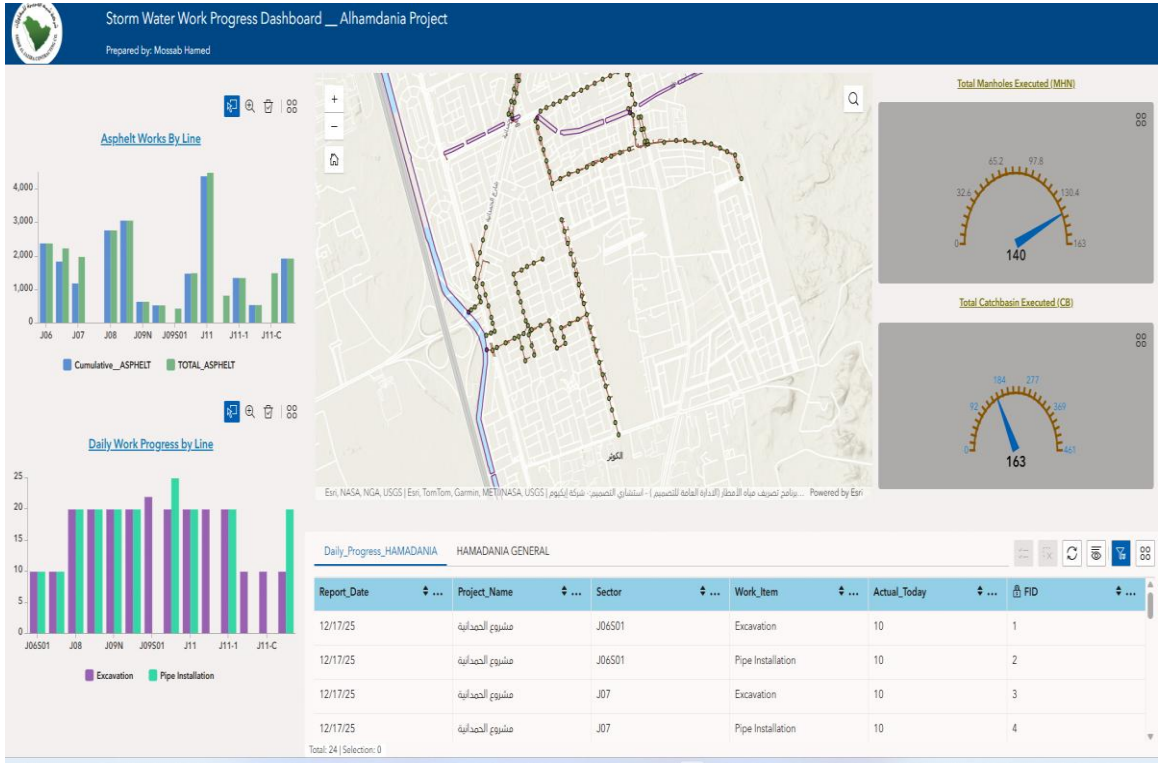

Clear web-based presentation of project information.

VIEW LIVE PROJECT PORTAL →

Project Showcase — Utilities & Stormwater

Water infrastructure and drainage GIS

NWC — Utility GIS

Water utility / residential connections, spatial analysis and reporting.

Al-Hamdania — Stormwater

VIEW AL-HAMDANIA LIVE →

Drainage assets, progress indicators, gauges, charts and daily reporting.

LET'S CONNECT

I am open to GIS, infrastructure, utilities, geospatial and digital engineering opportunities.
